

RANGE HOODS

From the heart of a craftsman.

Customize one of our designs or have your existing range hood custom wrapped and accented.

Various materials, finishes, and components allow you to design a product that meets both stylistic and functional demands.

Accent Kits

Set your hood apart with the wood elements of our Transitional accents, or the aged beauty of our Old World accents.

Banding and Straps

Applied vertically or horizontally, flat, forged, or aged banding accents the structure of the hood. Exquisite solid finishes, such as stainless, brass, and copper create a luxurious look.

Rivets

Add dimension and flair with decorative rivets. Rustic rivets provide an old-world aesthetic while modern rivets create a contemporary, industrial style.

NEW
Stacked Accent Option
